## EDUCATION

**B.S. Computer Science • Drexel University • Philadelphia, PA • 2013 - 2019**

Concentrations: Software Engineering, Human-Computer Interaction • Minor: Architecture

## TECHNICAL PROJECTS

**Developer / UI Designer • JPaint • July - September 2019**

- 10 week class project to develop a paint clone in Java using the Swing UI Toolkit
- Planned implementation of the UI by drawing sketches and creating a paper prototype
- Utilized a model-view-controller architecture for a more easily maintainable design
- Implemented features including customizable tools such as a paintbrush, an eraser, line and shape drawing tools, a paint-bucket tool, and a color-picker
- Created an advertisement for the program using only the program itself

**Front-end Web Developer • Checkers Online • June - September 2018**

- 10 week class project to develop an online checkers game using a client/server model
- Developed client application using HTML/CSS and Javascript with a canvas-based UI
- Coordinated with group members to design GET/POST requests for communicating game state information with the server application
- Assisted with writing project documentation, including a requirements specification document, a software design document, and documentation of test cases

## EXPERIENCE

**Co-op • Campbell Soup Company • Camden, NJ • April 2019 - January 2020**

- Assisted with the development of a new internal HR portal using ServiceNow, visible to all employees of the company
- Responsibilities included defining of project requirements, UI design, and customization of the portal, including creation of user criteria and queries using the Glide Server API
- Completed cataloging and migration of data from an older portal system; the modularity of the new system allowed for a 66% reduction in the number of pages of content
- Reduced expenses by \$200,000 annually by eliminating use of a legacy software system
- Led a training class of 50 HR associates on the usage of the portal's back-end

## SOFTWARE

C / C++ / Python / Go

Linux and UNIX systems

Microsoft Windows

Macintosh OS X (macOS)

IntelliJ IDEA (IDE)

Eclipse (IDE)

Xcode (IDE)

VIM (Text editor/"IDE")

Git (Version control)

Unity 3D

Adobe Creative Suite

Bash scripting

## SKILLS & COURSES

Software Design

Object-Oriented Programming

System Architecture

Software Security

Software Engineering

System Programming

Graphical User Interfaces

Architectural Design

Computer Aided Design
